

# Bay Enclosure

AVAILABLE FROM  
NEPEAN POWER

NEPEAN Power is a proven leader in the supply and manufacture of quality engineered solutions, products and technologies. Established in 1994, through the commitment of our dedicated team we have become a supplier of choice.

The bay enclosure system is extremely versatile and simple to install. The main structure is welded with overall section bars, which ensures the enclosure reaches high protection grade.

## Features

- Protection grade: IP55 to EN60529 NEMA4.
- Surface: the cabinet is phosphate coated and the exterior is epoxy thermosetting textured powder-coated.
- Material: the cabinet body is cold-rolled sheet steel, the mounting plate is galvanised.
- Thickness: Front door - 2mm. Body, back and inside panel are 1.5mm. Mounting plate - 2.5mm.
- Double doors in both left and right sides. Specific tube of the door strengthens system and brings higher durability.
- The rectangle frame not only reinforces the front door, but can also be used to install the electronic components.
- The crossing-lock, secures the front door with three points by up, middle and down.
- The back and side plate are easily removable and the back plate can be switched with the front door.
- The foam PU sealing gasket inside the plates makes the enclosure resistant to water and dust.
- Colour: RAL7032 RAL 7035.
