

Underground Nitrogen Transformer

AVAILABLE FROM
NEPEAN ELECTRONICS

NEPEAN Power is a proven leader in the supply and manufacture of quality engineered solutions, products and technologies. Established in 1994, through the commitment of our dedicated team we have become a supplier of choice.

Our NEPEAN Power Nitrogen Cooled Dry Type Transformers are designed to provide power delivery solutions in an underground environment where safety is of the highest importance.

NEPEAN Advantage

- All Copper windings for efficiency gains and cooler operation
- Removable sealed lid, not welded no cutting needed to service
- Tanks are our design with transformers manufactured to our drawings
- Low height or 5 limb designs
- Optional water cooled tanks
- Integral pressure monitoring with test facility
- AS4871.6 compliant
- Optional tertiary windings for multiple output voltages
- Optional ExP protection to IEC60079 standards
- International agent for Varelen Transformers
- Product supply only or turnkey solutions available
- Competitive Pricing and Fast Turn Around

NEPEAN Power's estimates and engineering team are prepared to receive your questions regarding how our superior products and new technologies can benefit your operation.
